

*Pippa identified that coordinating voluntary groups as well as making us more effective, could benefit us by reducing the costs of individually taking out public liability insurance. This ties in well with Rob Hopkins ideas about "caring towns", promoting the restoration of Lindow Moss will tie in with promoting tourism and also fits well with the Energy Groups development of a Community Benefit Company.
We thank Jean for continuing to represent Transition Wilmslow on the "Partnership" management team*

- **Wilmslow Show**

Some interest in energy surveys was generated but the displays did not get the attention hoped for, the weather and attendance was a factor.

In the future we should aim to have prepared in advance presentation boards on the TW aims and objectives (available) Information on work of sub-groups and specific themes. Then illustrate this with a physical activity to engage interest. Wherever possible involve young people.

If we continue with Wilmslow Show we should start an outline plan when booking the stall at the start of the year.

It was suggested that in 2016 we should concentrate on Artisan Market stalls and possibly "Party in the Park" in the Carrs.

The meeting particularly wished to thank Ali for all the work she did in preparing and setting up the stand this year.

Jane Selva is happy to consult with the Energy Group with their branding in presenting their important work.

- **Pot luck supper hosted by Chris and Phillipa Frankland:**
Our thanks to them once more for their hospitality and a lovely evening.
